

WADKIN BURSGREEN | 3 Axis Template Maker

| TECHNICAL SPECIFICATION | |
|-------------------------|-----------|
| Height | 730mm |
| Depth | 870mm |
| Weight (approx.) | 81 KGS |
| Template Size | 320 x 215 |

STANDARD MACHINE FEATURES:

Applications

Designs can be stored on file for immediate production of identical duplicate templates. Perfectly symmetrical templates are produced in minutes, giving improved productivity and a high quality component finish. Included within the price are delivery, installation, commissioning and operator training.

Tandem templates can be produced for chip limiter tooling where manual machining applications are applicable.

- Fast & accurate cutting
- Windows based user friendly system
- Will produce templates in plastics and non-ferrous materials
- Intricate complex profiles can be produced

Complete Package Includes:

The WADKIN BURSGREEN automatic template maker produces accurate templates at a fraction of the time of traditional methods. Using CNC technology, complex profiles can be drawn on screen or transferred from the scanned sample/image/diagram. They are then downloaded to the machining unit for immediate template production. Perfectly symmetrical templates are produced in minutes, giving improved productivity and a high quality component finish.

Benefits

- Engraving and hole making capability
- Automatic text hole and profile separation
- Inch and MM drawings accepted
- Fully compatible with all CAD systems eliminating the redrawing existing designs.
- Templates engraved with customer's name or type of moulding for easy identification.
- Available as a Complete Solution, or as individual components for existing machine users wanting to upgrade part of their system.
- 3D Tool path verification Draw and Cut Templates simultaneously.
- Wadkin Bursgreen CNC Template Router
- Compatible Windows based PC
- Windows control software
- Scanner
- Blank template material
- Spare carbide cutting tool
- Operator training
- CAD drawing software

- UNIQUE Comprehensive starter library of 450 profiles

OPTIONAL MACHINE FEATURES:

New Auto SHOE Option

Now with the same drawing as you use for the template, create pressure shoes for your difficult to control profiles.

As you grind your knives, have the Wadkin Bursgreen Template Maker cut the Pressure shoes. This software option can be used to upgrade your existing ISEL template maker.

Auto SHOE eliminates snipe and chatter marks

Auto SHOE eliminates rub marks on finished mouldings

Auto SHOE controls split mouldings.

Package includes Auto SHOE program, clamp base plate, 1/8" Bull-nosed cutters, 1/4" collet, and blank shoes.
